

Fingertip Toothbrush

BA100

This toothbrush is an ideal way for small children to maintain proper oral hygiene. It is made by food grade silicone, and which is safe and comfortable.

- √ Easy to use --- specially designed to slip onto your index finger.
- √ Non-toxic --- completely hygienic-made by food grade silicone.

How to use:

1. Wear the toothbrush onto your index finger.
2. Clean baby's tooth, the oral cavity, and the tongue gently.
3. Use the brush to gently rub baby's gums. This little massage is helping his gums feel better during teething.

Care instructions:

1. Inspect before and after each use and throw away when worn or damaged.
2. Before use, wash thoroughly. Sterilize in baby bottle sterilizing solution according to the sterilizing manufacturers instructions or by means of boiling water for at least five minutes.
3. Dishwasher and microwave safe.
